

Blood & Light

Rue Volley is a seventeen year old going on immortal. Her mother Grace is in Rolling River Asylum, after she mysteriously stopped speaking to anyone. Her father William is now absent from her life. The only person she thinks she has left is her annoying brother Kai, who tries to kill her with his lack of cooking skills. Kai convinces Rue that she needs to be more social and drags her to a party at Johnathan Graphs house. Little does Rue know that because of this one small change in her otherwise normal routine, her life as she knows it will never be the same. Rue is about to find out that she will never die and has to make the ever trecherous decision of which hot boy she will spend eternity with. She wants Johnathan Graph, really, really bad but she needs Joshua Barrington, a boy who does nothing but annoy her death. One boy wants to kill her and one will die to save her. Suddenly, although she has lost the core of the family that she has known, she has gained a new family, who desperately try to help mold her into what she will become. Rue struggles to learn who she is as she navigates through a new world of beings that seem to want to own her or destroy her completely. This story takes Rue on a wild ride from her hometown of Calvary, Minnesota to the gates of the immortal city of Valon...the birthplace of her decendants...immortals who believe that humans are nothing but cattle. What do you eat when blood grosses you out, but thats all you think about? Everything is such a big deal, except death...OMG.
