

Race the Red Horizon: the Flight of the Pteronaut

Daylight is coming to the dead red deserts... And with it comes the Pteronaut, but he does not come alone. Blown off-course, far from the deserts he knows, no food, no water, no weapons, the Pteronaut is running out of time. On his trail is the Crawler, ancient and unstoppable. The Pteronaut must use all his strength and cunning to survive. But what are the white lines that criss-cross the waterless wastes? Where do they lead? And what is the secret of the lost signal from the dead deserts past? The race for the red horizon has begun!
