

Enough is Enough (The Timekeeper Chronicles) (Volume 1)

A Timekeeper from over 100 years in the future named Isaac sends a message here, the present, to warn us of the impending doom waiting for humanity. With the help of his friends on both sides of an inevitable war (Lilith, Chief, Hacker, and several others) and their unique capabilities, they do everything in their power to give humanity time to prepare, even if it means upsetting the natural order of things. Isaac is trained in every aspect of combat, and a power suit to not only enhance his well above average abilities but also to manipulate time. Lilith, despite her training along side Isaac, Chief, and few others, ended up becoming part of an inner circle tied to Lucifer himself. She, like Isaac, is also trained in every aspect of combat, and because of her access to unique weaponry makes her the ultimate destructive force. Chief is a super soldier with power armor that makes him the best candidate for front-line operations, the first unstoppable force ever made by man. Hacker, as his code name suggests, is a true elite when it comes to high tech solutions. There is nothing he cant find or build, sometimes while going through a string of insults that would make even the devil himself blush.
