

The WonderLick Twins: The Lessons Continue (The Wonderlick Chronicles Book 2)

The series that voluptuousallure.com reviewed saying: Watching the story evolve throughout the two books was amazing. I was halfway expecting just a smutty book about school girls who want to find themselves, and was pleasantly surprised that this book isn't at all what the reader is expecting. It is action packed, erotic, and captivating. Join with us again as Tia and Teny have been named acolytes in the Guild of the Thorns. Their training has begun in order to end the reign of the Benefactors. Learning to fight, kill and satisfy their targets to such an extent that they're ok with being killed. Will learning more about their pasts drive the acolytes over the edge or will it steal their resolve, and allow them to take the steps they need to become Thorns?
